

Maike Stolte

Clarity. Connection. Real impact.

PROFILE

Maike Stolte works with organisations when managers need to step up, teams lose ownership, communication becomes strained, or pressure leaves leaders reacting rather than leading.

An ICF Master Certified Coach (MCC) with more than 18 years of international experience, Maike helps executives and managers strengthen the behaviours that shape performance: sound decisions, clear communication, effective delegation, constructive conflict and shared accountability.

Her approach combines practical leadership tools with Gestalt psychology, systemic thinking and somatic awareness, turning deeper insight into concrete action.
